There are 2 entries listed for Canada on recent foreign abortion spending. One was for $19,959,594.00 in Mali, and the other was for $4,985,000.00 in Ghana. Together, these grants make up nearly $25 million. The records are publicly available.

At a time when we are (allegedly) in the middle of a global pandemic, killing African children abroad is apparently still a priority for this Government. Interesting. How come this hasn't been mentioned in the media, or by "opposition" parties? Are they unaware of this?

This organization holds several patents, including for equipment to perform abortions. It has been doing this for a very long time.

In 2009, Marie Stopes received a $50 million grant from the Bill & Melinda Gates Foundation. Gates Sr. is a former Head of Planned Parenthood in the U.S., so this ideologically lines up.

Marie Stopes would definitely be worth a deep dive, as she frequently gets compared to Margaret Sanger. However, that will have to be for another time.

And what are "conservatives" saying about this? It seems they don't actually oppose the killing of children ideologically. However, they do try to score points for claiming to oppose sex-selective abortion. In other words, snuffing out children is okay, just don't be a bigot.

really starting to understand the connections between these international not for profits and the child trafficking and murderous practices that Canadian taxpayers are unknowingly contributing funds towards.
